

food grade absorbent

SPECIALTY FOOD GRADE ABSORBENT DESIGNED TO ENCAPSULATE ALL WASTE & ELIMINATE SMELL IN RESTAURANTS, RESTROOMS, & HOSPITALS

To learn more about the benefits of **BoneDry™ FG Absorbent** or to place an order, contact our sales department today at **(780) 296-4915**

The **Fastest & Safest Way** to Absorb Almost Any Liquid, & Leave an Odor Free, Non-Slip, Residue Free Surface!

YOU HAVE TO SEE IT WORK TO BELIEVE IT

With its extraordinary absorption and holding power, **BoneDry™ FG Absorbent** offers a new level of efficiency and cost-effectiveness for the quick pick-up of virtually any spill – foods, oils, detergents or waste products. **BoneDry™ FG Absorbent** leaves a non-slip, residue free surface, so as to minimize the risk of costly injuries due to slips and falls.

Compatible with virtually any oil or water-based substance, **BoneDry™ FG Absorbent** outperforms conventional absorbents like clay or vermiculite, and other granular materials. **BoneDry™ FG Absorbent** while being super-absorbent, also suppresses odors and vapors. **BoneDry™ FG Absorbent** is made with FDA-recognized ingredients and is safe to use in healthcare and food processing environments.

10x
More Effective
than Conventional
Absorbents

KEY BENEFITS

SUPER ABSORBENT FOR THE RAPID AND COMPLETE REMOVAL OF SPILLS

In foodservice and hospitality, it's all about getting rid of spills quickly and completely. Whether a food, oil, detergent, or waste product spill, **BoneDry™ FG** works with astonishing speed and thoroughness.

LEAVES A NON-SLIP AND RESIDUE-FREE SURFACE FOR IMPROVED SAFETY

The cost of an absorbent is minimal compared to the value associated with our **BoneDry™ FG** product. Incomplete cleanups can result in slips and falls, which in turn lead to worker or customer injuries, lawsuits, and more which could have been prevented.

SUPERIOR PERFORMANCE AT AN ECONOMICAL PRICE

BoneDry™ FG outperforms conventional absorbents like clay or vermiculite and other granular materials. With such compelling absorbing power, far less **BoneDry™ FG** is needed to get the job done. That typically translates into 50% savings versus conventional absorbents.

Food grade absorbent

MORE KEY BENEFITS
