

SPECIALITY BLEND FOR ALL WATER-BASED LIQUIDS (WATER-BASED MUD)

To learn more about the benefits of **BoneDry™ H2O Absorbent** or to place an order, contact our sales department today at **(780) 296-4915**

*Extraordinarily* efficient drying agent specifically designed for the solidification (mixing off) water based mud cuttings produced in the oil and gas and horizontal directional drilling.

**10x**  
Clay or Conventional  
Absorbents

**50%**  
Savings Compared  
to Clay

## QUICKLY ABSORBS ALL WATER-BASED LIQUIDS.

Efficient and effective, **BoneDry™ H2O Absorbent** maximizes savings by minimizing usage which leads to additional cost savings at the landfill. **BoneDry™ H2O** delivers a level of performance you may not have thought possible.

With **BoneDry™ H2O** extraordinary holding power, you can cleanup virtually any spill – on any surface, in any industry, and at a competitive price.

# KEY BENEFITS

## BONEDRY™ H2O IS DESIGNED FOR WATER-BASED MUD CUTTINGS

**BoneDry™ H2O** should be the major weapon used to solidify water-based mud cuttings.

## SUPERIOR PERFORMANCE AT AN ECONOMICAL PRICE

**BoneDry™ H2O** has the highest absorption rate compared to conventional products. **BoneDry™ H2O** is typically 10 times more absorbent resulting in using far less product to solidify the cuttings. That typically translates to 50% savings while delivering superior performance.

## LANDFILL-FRIENDLY

Can be safely disposed of in landfills (Non-biodegradable, Non-leaching).

## WASTE MINIMIZATION

**BoneDry™ H2O** significantly minimizes waste because it weighs less and absorbs more than most competitive absorbents. Less product means less tonnage, less waste, less cost.

## IMPROVED SAFETY AND COMPLIANCE

**BoneDry™ H2O** fully encapsulates the Water Based Mud Cuttings insuring all loads are dry and not turned away at the landfill. The dollars spent on absorbent products are insignificant compared to the cost and liability of a mishap that occurs from improper or incomplete use.

## MORE KEY BENEFITS

- > Absorbs liquids immediately on contact
- > Non-toxic
- > Easy to handle
- > Non-abrasive
- > Helps eliminate oil odors
- > Non-leaching
- > Non-carcinogenic

## USE BONEDRY™ H2O ABSORBENT SAFELY AND EFFECTIVELY IN:

- > Solidification
- > Closed Loop Systems
- > Water-Based Mud Cuttings
- > Dewatering
- > Horizontal Directional Drilling
- > Waste Facilities
- > **And many more**

SKU	PRODUCT	DESCRIPTION
NS-BD-2611	BoneDry™ H2O	Large Super Sack
NS-BD-2612	BoneDry™ H2O	Medium Super Sack
NS-BD-2613	BoneDry™ H2O	25 Gallon Poly Drum
NS-BD-2614	BoneDry™ H2O	2 Cubit FT Bag
NS-BD-2615	BoneDry™ H2O	3 Pound Resealable Bag
