

SPECIALITY OIL ABSORBENT BLEND FOR ALL
HYDROCARBONS (OIL BASED MUD) & REPELS WATER

To learn more about the benefits of **BoneDry™ HC Absorbent** or to place an order, contact our sales department today at **(780) 296-4915**

Premium Drying Agent for the Solidification, Haul Off, and Disposal of Oil Based Mud Cuttings.

Instantly Absorbs and Encapsulates Any Hydrocarbon-Based Liquid.

YOU HAVE TO SEE IT WORK TO BELIEVE IT

Now cleaning up oil spills can be done quickly, easily, and cost-effectively. All you need is **BoneDry™ HC Absorbent** and a broom!

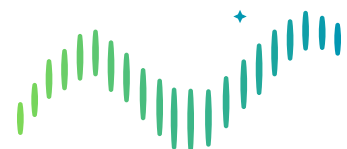

Oil spills and oil-based mud cuttings don't stand a chance against **BoneDry™ HC**. Upon contact, **BoneDry™ HC** instantly absorbs, encapsulates, and never lets go of any type of oil spill on soil, grass and all solid surfaces. Effective on diesel fuel, lubricants, hydraulic fluid, brake fluid, transmission fluid, drilling fluid, oil-based mud cuttings and many others.

BoneDry™ HC is by far the most cost-effective way to solidify and encapsulate oil-based liquids, especially drill cuttings.

BoneDry™ HC is the perfect drying agent for closed loop solid controls.

10x
More Absorbent
than Conventional
Absorbents

50%
Savings Compared
to Clay

NORTHSTAR

780-296-4915

The most cost effective way to contain oil-based spills on hard surfaces in virtually all weather conditions.

SUPER-ABSORBENT FOR LAND-BASED OIL SPILLS

Bonedry™ HC instantly absorbs any and all hydrocarbons on soil, grass, and solid surfaces.

RIGBLEND IS EXTREMELY ECONOMICAL

Bonedry™ HC is typically 10 times more absorbent than conventional, clay-based products. Simply put, you can use less product. That typically translates to a 50% saving while delivering superior performance.

REPELS WATER

Bonedry™ HC will not absorb water. It removes oils but leaves the water behind. This makes Bonedry™ HC the ideal absorbent for cleaning up oil spills in wet environments.

ALL-NATURAL CLEANUP TECHNOLOGY

Bonedry™ HC can be safely disposed of in landfills and reduces disposal costs by up to 75% when compared to clay. Safe to use in all landfills.

MORE KEY BENEFITS

- > Absorbs immediately on contact
- > Works on any oil-based fluids
- > Helps eliminate oil odors
- > Non-toxic
- > Non-abrasive
- > Non-leaching
- > Non-carcinogenic
- > Waste minimization
- > Easy to handle

PUT THE POWER OF BONEDRY™ HC ABSORBENT TO WORK FOR YOU WHEREVER THERE ARE HYDROCARBON LEAKS OR SPILLS ON LAND.

- > Oil Rigs
- > Farms
- > First Responders
- > Fuel Islands
- > Fuel Terminals
- > Closed Loop Mud Containment
- > Heavy Duty Truck Shops
- > Land Remediation Projects
- > Machine Shops
- > Manufacturing Plants
- > Oil-storage Facilities
- > Pipeline
- > Refineries
- > Vehicle Repair Shops
- > Waste-management Facilities
- > **And many more**
