

SPECIALITY BLEND FOR SPENT CAUSTIC

To learn more about the benefits of BoneDry™ SC Absorbent or to place an order, contact our sales department today at (780) 296-4915

**Removes** spent caustic drips and spills around pumps, truck loading/unloading, tank bottoms fittings and sample collection.

**10x**  
Clay or Conventional  
Absorbents

**50%**  
Savings Compared  
to Clay

BoneDry™ SC minimizes and/or removes hazardous odors associated with sulfides, mercaptans, volatiles, semi-volatiles. BoneDry™ SC becomes encapsulated in the absorbent and will not release once fully absorbed. BoneDry™ SC will pass leaching and paint test for landfill disposal. Very user friendly and eliminates hazardous conditions. Eliminates the need to apply oxidizers such as hypochlorite or hydrogen peroxide to clean up spills. Eliminates hazardous & corrosive surfaces which can be dangerous to health and destructive to the environment.

# KEY BENEFITS

## BONEDRY™ SC CAN CLEAN-UP ALMOST ANY SPILL!

Whether your spill is oil or water based, **BoneDry™ SC** is up to the task. **BoneDry™ SC** should be the major weapon in your cleanup arsenal.

## SUPERIOR PERFORMANCE AT AN ECONOMICAL PRICE

**BoneDry™ SC** has the highest absorption rate compared to conventional products. **BoneDry™ SC** is typically 10 times more absorbent than conventional clay-based products, resulting in using far less product for cleaning up any type of spill. That typically translates to 50% savings while delivering superior performance.

## POLYMER & OIL SOLIDIFIER AND ENCAPSULATOR

If you need to clean up polymers, **BoneDry™ SC** is just what you've been waiting for! The amazing encapsulation properties of this product turn spilled polymers and coagulants into a dry fluffy substance.

## IMPROVED SAFETY AND COMPLIANCE

The dollars spent on absorbent products are insignificant compared to the cost and liability of a mishap that occurs from improper or incomplete cleanup and disposal. Improper cleanups lead to slips and falls, which in turn lead to worker injuries, lost productivity, workmen's compensation claims, health care bills, lawsuits, and more which could have been prevented.

## WASTE MINIMIZATION

**BoneDry™ SC** significantly minimizes waste because it weighs less and absorbs more than most competitive absorbents.

## LANDFILL-FRIENDLY

Can be safely disposed of in landfills (Non-biodegradable, Non-leaching).

## MORE KEY BENEFITS

- > Absorbs liquids immediately on contact
- > Non-toxic
- > Easy to handle
- > Non-abrasive
- > Helps eliminate oil odors
- > Non-leaching
- > Non-carcinogenic

## USE BONEDRY™ SC ABSORBENT SAFELY AND EFFECTIVELY IN:

- > Airplanes
- > Automotive
- > Chemical Plants
- > Closed Loop
- > Mud Cuttings
- > Commercial Printers
- > Dewatering
- > Equipment
- > Factories
- > Gas Stations
- > Horizontal Directional Drilling
- > Households
- > Industrial
- > Laboratories
- > Outdoor Areas
- > Oil Rigs
- > Manufacturing Plants
- > Ships
- > Trains
- > Waste Facilities
- > **And many more**
